

True Real-Time Vehicle Tracking

EasyTracGPS' ETP-Mini GPS Tracker is a wireless device that can clip onto any belt or be deployed in any manner of concealment. The ETP-Mini truly tracks LIVE with available 1, 5, & 10 second updates that can be viewed via the internet. Initially developed for federal emergency first responders, the ETP-Mini is now available to everyone.

GPS tracking functions include zone and speed monitoring, start/stop reports, historical playback, as well as detailed device location reporting. The ETP-Mini can track an infinite number of people or vehicles simultaneously.
